Summary

Entry-level Software Developer with a foundation in Python, SQL, and programming fundamentals. Experienced in developing Python-based projects involving web scraping, data processing, and text analysis. Eager to build reliable software solutions, strengthen development skills, and contribute to collaborative engineering teams.

Education

2026	Electrical and Electronics Engineering, **SRM TRP Engineering College**	CGPA: 7.91
2022	12th HSC, Ponnaiyah Ramajayam Public Higher Secondary School	Percentage - 72.1
2020	10th SSLC, Ponnaiyah Ramajayam Public Higher Secondary School	Percentage - 71.4

Technical Skills

Programming: Python
Core Concepts: OOP, Basic Data Structures and Algorithms
Database: Oracle SQL, MS SQL
Libraries: Pandas, NumPy, BeautifulSoup, Requests
Tools: Git, GitHub, VS Code, Jupyter Notebook

Internship

Pyspider – Data Science Intern August 2026
Worked on data preprocessing, exploratory data analysis, machine learning, and visualization using Python, SQL, Power BI, and Excel.

IPCS Global – PLC Programming Intern August 2024
Completed an internship involving PLC programming, ladder logic, and troubleshooting in industrial automation.

Projects

Mental Health Analytics – Analyzed and visualized data using Python, Pandas, NumPy, Matplotlib, and Seaborn.
Blinkit Sales Analytics – Built a Power BI dashboard to track sales KPIs and business trends using DAX and Excel.
Indian Railways Train Information Scraper – Developed a Python web scraper using BeautifulSoup and Requests to extract train information.
Twitter Sentiment Analysis – Applied Python and text preprocessing to classify tweet sentiment using machine learning.

Presentation

Grid-Connected Solar–Wind Hybrid Energy Systems for EV Charging Stations
Presented at ICIRIST 2026, Dhanalakshmi Srinivasan Engineering College, Tamil Nadu.
